General Description _____	3
Topic Coverage _____	3

General Description

The Magnetism and Electromagnetism training module introduces students to practical, up-to-date applications in magnetism and electromagnetism. The board permits to experiment on:

- Magnetic Poles
- Magnetic Lines of Force
- Electromagnet/Solenoid
- Control Circuit/Latch
- Buzzer

Topic Coverage

- Magnetism, Magnetic Fields, Making a Magnet
- Electromagnet, Solenoid, Relay

Reflecting the commitment of Festo Didactic to high quality standards in product, design, development, production, installation, and service, our manufacturing and distribution facility has received the ISO 9001 certification.

Festo Didactic reserves the right to make product improvements at any time and without notice and is not responsible for typographical errors.
