General Description

The Industrial Controls Single-Rail Workstation consists of a single pair of mounting rails designed to be installed on top of the Workstation, Model 8134, or Mobile Workstation, Model 8110, to facilitate interconnection between the Industrial Controls Training Systems, Series 8036, and the Electric Power Technology Training Systems, series 8010.

A safety bar is attached to the rail of the Industrial Controls Single-Rail Workstation. This bar prevents students from removing modules during laboratory exercises. A padlock is provided to lock the safety bar in place once all modules are inserted in the workstation.
