## General Description

The Slide-Screw Tuner consists of a variable susceptance of adjustable position that allows the matching of a load to be carried out without calculations. The value of the reactance provided by the Slide-Screw Tuner can be varied and its position adjusted to minimize the reflection coefficient in the waveguide.

## Specifications

Parameter	Value
Insertion Loss	0.2 dB

Reflecting the commitment of Festo Didactic to high quality standards in product, design, development, production, installation, and service, our manufacturing and distribution facility has received the ISO 9001 certification.
