General Description

The Piping and Accessories kit contains the components required to operate the Pressure, Flow, Level, and Temperature Process Training Systems and to perform the suggested experiments.

Among the components of this model are: a series of hoses, elbows, and pressure ports, a wet leg designed to perform experiments on the process column, a threevalve manifold, wires, pressure tubes, tools, and an attach bracket to link the Instrumentation Workstation to the Process Workstation.

The different variations are designed to account for the possibility of having two teams on the same station and to avoid redundancy of equipment whenever appropriate.

Available kits:

- 46993-A: Piping and Accessories - 2nd Team
- 46993-C: Piping and Accessories (Temperature) - Basic System
- 46993-E: Piping and Accessories (Pressure/Flow/Level) - Basic System
- 46993-F: Piping and Accessories (Pressure/Flow/Level) - Add-on
- 46993-J: Piping and Accessories (Temperature) - Add-on

Reflecting the commitment of Festo Didactic to high quality standards in product, design, development, production, installation, and service, our manufacturing and distribution facility has received the ISO 9001 certification.
