General Description

The Shell and Tube Heat Exchanger (1 pass) is an optional heat exchanger in the Pressure, Flow, Level, and Temperature Process Training Systems.

The Shell and Tube Heat Exchanger (1 pass) is made of a series of tubes around which a watertight shell is built. A given fluid flows in the tubes while another one flows in the shell around the tubes.

Available optional heat exchangers:

- 46905-A Gasketed Plate Heat Exchanger
- 46905-B Shell and Tube Heat Exchanger (1 pass)
- 46905-C Shell and Tube Heat Exchanger (4 pass)

Reflecting the commitment of Festo Didactic to high quality standards in product, design, development, production, installation, and service, our manufacturing and distribution facility has received the ISO 9001 certification.

Festo Didactic reserves the right to make product improvements at any time and without notice and is not responsible for typographical errors.
