## General Description

The Water Analyzer is a multifunction device which allows the simple and accurate measurement of the pH, conductivity, resistivity, oxidation-reduction potential, total dissolved solids and Langelier saturation index of a test solution.

Reflecting the commitment of Festo Didactic to high quality standards in product, design, development, production, installation, and service, our manufacturing and distribution facility has received the ISO 9001 certification.

Festo Didactic reserves the right to make product improvements at any time and without notice and is not responsible for typographical errors.
