General Description

The Custom Computer for SCADA is designed to ensure full compatibility with the SCADA system as well as long-term reliability and efficiency.

The optional preferred software for SCADA such as FactoryTalkView, WinCC is pre-installed along with the other optional PLC programming software ordered at the same time, such as RSLogix Micro, RSLogix 5000 or Step7 TIA Portal. All the software are registered to the training facility.

The computer model includes a 23-inch Touch-Screen Computer that is a compact solution for saving space in the classroom. It can be installed on a full-motion mount on the workstation to maximize desk space. An optional computer-mount is also available to attach the computer to the Instrumentation Workstation.

Reflecting the commitment of Festo Didactic to high quality standards in product, design, development, production, installation, and service, our manufacturing and distribution facility has received the ISO 9001 certification.

Festo Didactic reserves the right to make product improvements at any time and without notice and is not responsible for typographical errors.
