## General Description

The Industrial PC HMI consists of a Siemens 477D Industrial PC with a 48.2 cm (19 in) color display. This touch-screen interface allows monitoring and control of some features of the Pressure, Flow, Level, and Temperature Process Training Systems. The Touch Screen Graphic Terminal is pre-programmed with a control interface developed with the various components of the system in mind. It features an integrated PROFINET communication port, three USB ports and DVI port to connect an extra large monitor for presenting démonstrations to a large student group. The Industrial PC includes Windows 7 Ultimate and WinCC Runtime software.

The WinCC Advanced development software, Model 46984, is optional and can be used to design your own control interface.

## Manual

Description	Manual number
