### General Description

The 3AC Transformer Bank consists of three independent power transformers enclosed in a module. Safety banana jacks on the module front panel provide individual access to the windings of each power transformer, allowing connection in either wye or delta configuration. The transformer windings are polarized and the polarity of each winding is indicated by a small dot on the module front panel. Resettable fuses protect the primary and secondary windings of each transformer against overcurrents. Fuse status lamps on the module front panel turn on when the resettable fuses open.

### Specifications

Parameter	Value
<b>Rating (Each Transformer)</b>	
Primary Voltage	400 V
Secondary Voltage	400/230 V
Power	100 VA
Full-Load Current	0,25 A
<b>Conformity/Directives</b>	CE and RoHS
<b>Physical Characteristics</b>	
Dimensions (H x W x D)	297 x 266 x 140 mm
Net Weight	9,8 kg

Reflecting the commitment of Festo Didactic to high quality standards in product, design, development, production, installation, and service, our manufacturing and distribution facility has received the ISO 9001 certification.
