General Description

The Polycrystalline Silicon Solar Panel consists of a 20 W photovoltaic panel that can be mounted on the side of an EMS Workstation or on any other vertical surface. The included support allows the user to position the panel in any direction (left to right, up and down) and includes a tilt-angle digital monitor for easy adjustment. To connect this panel to other devices, 4mm safety jacks protected with an easily replaceable fuse are located on the side of the solar panel.
