

Lab-Volt in the News

In July 2011, Lab-Volt offered a two-day Technical Training workshop, featuring our Alternative and Renewable Energy training systems and hosted by Clark College in Vancouver, WA. KGW News Channel 8, an NBC affiliate serving the Portland, OR metropolitan area, featured the workshop in the "Your Money" segment of their 6:30pm news broadcast.

See the video on our [Lab-Volt YouTube Channel](#).
