

Industrial Training Zone (ITZ) now delivered through Mind-Sight

Industrial Training Zone (ITZ) by Lab-Volt offers a broad range of fundamental and specialty web-based industrial training courses on demand. These courses are designed to help industrial businesses build a more competent, qualified, and efficient workforce.

Previously available on a proprietary platform, ITZ courses are now delivered through Mind-Sight, Lab-Volt's learning content management system (LCMS) aimed at supporting technical and engineering eLearning.

This seamless integration of content into the LCMS will have positive impacts on the global learning experience. ITZ courses will now benefit from Mind-Sight's powerful features, such as easy curriculum customization and efficient student follow-up by the instructor.
