General Description

The Robotics System Software Development Kit (SDK) is intended for developers who are interested in developing their own applications for the Robot System. It includes a CD-ROM with all the files required to use the dynamic-link library (DLL) as an abstraction layer between the end-user application and the low-level communication protocol from and to the USB Controller. The Robotics System Software Development Kit comes with a User Guide giving the details of each function in the library. However, since the Robotics System Software Development Kit is intended for developers, no instructional material is provided.

Manual

Description	Manual number
5150 Robotics System Software Development Kit (User Guide)	584870 (39644-E0)

Specifications

Parameter	Value
Computer Requirements	A currently available personal computer running under one of the following operating systems: Windows® 7 or Windows® 8.

Reflecting the commitment of Festo Didactic to high quality standards in product, design, development, production, installation, and service, our manufacturing and distribution facility has received the ISO 9001 certification.
